

PART-TIME OR FULL-TIME GENERAL ULTRASOUND

Job Summary

We are seeking a skilled and compassionate Ultrasonographer to join our healthcare team. The ideal candidate will be responsible for performing diagnostic imaging procedures independently using ultrasound technology to assist in the evaluation and treatment of patients. This role requires a strong understanding of anatomy and physiology, as well as the ability to provide excellent patient care while ensuring adherence to safety protocols.

Company Description

MEDICAL ASSOCIATES OF RHODE ISLAND, INC. is a private practice based in Bristol, Rhode Island, United States.

Role Description

This is a Full-Time or Part-Time on-site role for an Ultrasound Technologist at Medical Associates of Rhode Island. The Ultrasound Technologist will be responsible for conducting ultrasound scans independently on patients and working closely with radiologists and physicians to provide accurate and timely results.

Key Responsibilities:

- Set up, explain, and operate ultrasound for all ultrasound studies independently
- Perform general and breast ultrasounds including; dense breast, diagnostic breast exams, RUQ, LUQ, abdomen complete, RLQ, renal, thyroid, scrotal, DVT, pelvic complete, and bladder exams.
- Communicate and ensure comfort for patient during the exam.
- Evaluate ultrasounds and use good judgment to determine if additional scanning is needed.
- Maintain and ensures confidentiality of patient images and records.
- Ensure that ultrasound equipment and tech area remain clean and operate fully. Report equipment failure to the supervisor and call service provider for applicable service.
- Able to multi-task and prioritize independently.
- Maintain ultrasound specific continuing education.
- Ability to communicate results efficiently to ordering doctors and Radiologists.
- Ensure that QA/QC is maintained within regulatory guidelines.

Qualifications

- American Registry of Radiologic Technologists (ARRT) and American Registry for Diagnostic Medical Sonography (ARDMS) certifications
- Breast Ultrasound Certified preferred
- Experience in diagnostic breast scanning and dense breast scanning (2 or more years preferred.)
- Excellent communication and interpersonal skills
- Attention to detail and ability to work in a fast-paced environment independently
- Associate's degree in Diagnostic Medical Sonography or related field
- BLS certification
- General knowledge of anatomy and pathology related to ultrasound
